

Independent Reading – Creative Writing
Engaging Role Play - Speaking and Listening

Wonderland 4 in 1 Den

Four creative classroom applications in one piece of equipment

- 1) A READING DEN 2) A DARK DEN 3) A PUPPET THEATRE 4) A STAGE

AND 14 photo realistic backdrops that wrap around the inside walls

USE 1

A READING DEN

Reading Dens improve reading ability. One pioneering school saw a 48% rise in year 6 pupils gaining level 5 in reading. This is achieved by reserving the den as a reading only area. The appeal of such a magical, secret environment thus leads to more independent reading practice, which in turn improves standards. Up to 4 children can read together inside and there are 14 interchangeable backdrops to line the inner walls, which are featured in the red section below. The backdrops form part of the appeal of the environment but are also a source of stimulation for creative writing. An additional benefit is that the enclosed space cuts children off from many other distractions, which can help improve concentration.

The dens are lit by 9m of sturdy rope lighting and the outer cover and comfortable foam mat are both washable. There are entrances on both the front and side walls.

A DARK DEN

With the lights off, the den becomes a completely dark environment, thanks to the inner lining behind the cover. Ideal for exploring textures, shapes, weight, temperature and sound using senses other than sight.

USE 2

USE 3

A PUPPET THEATRE

The foam base mat lifts up and ties to the front uprights, to become an instant Puppet Theatre, that up to four children can use together. The backdrops and internal lights add considerable extra scenic effect. Great for developing speaking and listening and imaginative play.

USE 4

STAGE/ROLE PLAY AREA

The cover ties back to create a stage setting for the backdrop images. Ideal for role playing or play acting. Just change the backdrop when you change your termly theme.

Wonderland 4 in 1 Dens

The lightweight frames come with a choice of 14 different banner sets. Each set comprises two complementary images that fit onto the inside walls of the Den. It takes less than 2 minutes to change both and they can be stowed away in the tube provided. The frames can be folded up when not in use and the red trimming is velcro compatible, making it easy to attach appropriate key words. When ordering, purchase a den kit (code 600) which comprises frame, 9m rope light, cover & foam mat and then select which ever banners are wanted for inside, from the list below.

Sizes : W 1400 x D 850 x H 1200mm
